**The following matters were discussed.**

- **Before the formal meeting, the, Principal, HODs, Faculty Members and Alumni made self-introduction about themselves.**
- The Principal welcomed the gathering and stressed the importance of Alumni network and contribution of the Alumni towards the development of the institution. He underlined that more faculty members with Ph.D degree are currently working in the college. He happily informed to the alumni that four under graduate courses in the college such as Computer Science and Engineering, Electronics and Communication Engineering, Electrical and Electronics Engineering and Mechanical Engineering were accredited by NBA for three years during their visit in March 2017. Principal stressed that this accomplishment was made with the help of Faculty Members, Staff Members, Students and Alumni. Also, he underscored that during this current semester, our college is going to apply for NAAC accreditation process. Principal praised some of ECE students of 2010 batch who are doing financial help to the student who is currently studying Second Year ECE in our college. This makes the relationship between Alumni and College become strong. He requested the Alumni to visit the college at any time to provide valuable suggestion for improvement of the college or send the suggestions through email or by phone.

**The following suggestions were given by the Alumni**

**Mr. L. JEYABAL, CSE, 2003-2007 Batch**

- He stressed that freshers should work in the particular company for more number of years. This makes them to be more stable in that company and he /she attain top position in the company within short period of time. Switching to different companies very often will make them more insecure and that person will not learn anything from their

experience. He would like to guide the freshers for getting jobs in software companies in another private meeting at the end of this Alumni Meet.

**Mr. P, KALAIVANAN, IT, 2001-2005 Batch**

- He shared his own experience as how he was struggled to get job in the IT firms after completion of his graduation. He underscored the importance of good communication skills and soft skills for getting jobs in software companies.

**Mr. A.V, MUTHU, CSE, 2000-2004 Batch**

- He told the importance of Alumni meet for freshers since it creates opportunity for them to connect with their seniors who are well settled in big companies. He will try to arrange Placement drive by their company in our college. He wanted that every student in our college should read the THE HINDU newspaper for about 20 minutes per day to enhance their communication skills.

**Mr. K. Sivakumar , EEE, 2007-2011 Batch**

- He informed that he is currently working in VRM Energy Limited, Chennai which was run by our own Alumni of 2002 – 2006 EEE Batch Mr . R. Muthukumar. He told that EEE students who would like to work in Solar Energy field may approach him for getting jobs in VRM Energy Private Limited.

**Mr. Deivaselvan , CSE, 2007-2011 Batch**

- He elaborated the recruitment process in his company ( SynC Fusion ). He told that his company is providing good salary package to the people after attaining certain number of years of experience. The recruitment process is very simple in his company. It has no interview. No logical reasoning test will be conducted. Only programming skills will be tested with simple programmes. The top management of his company is not willing to come to our college for campus interview. But students from our college can attend the interviews conducted in his company every fortnight. Even though he is communicating the information about the job requirements / interviews to be held in his company to our college, there was very poor response from our students. It was because of the communication gap between the Alumni Network and College. The gap should be reduced and whatever the information shared by the Alumni should reach the students who are currently pursuing education in the college. He desired that more students from our college should join in his company since it provides good salary package.
- Dr. N. Karthikeyan, HOD/PG CSE and Secretary, Alumni Association replied that the information about the job requirements / interviews to be held given by the Alumni are immediately shared to the Alumni Network through Facebook Postings and Alumni Portal. The reasons for poor response may be attributed to students lethargic attitude or not willing to get the jobs in MNCs.
- Principal also replied that people like Mr. Deviaselvan may come to the college at any time and share the opportunities available in his company, interview process and salary package to the students who are currently undergoing education in the college. That will provide more impact to the students career rather than sharing the information. Also, he

assured that whatever the information shared by the Alumni will reach the every member of Alumni Network.

- Mr. Deivaselvan assured that if he gets time, he will come to the college and may address the information about his company to the students.

#### **Mr. Vishnu Ram , EEE, 1999-2003 Batch**

- He made a reply to Mr. Deivaselvan's Speech. He told that a college can do maximum to the student's benefit in all aspects. For the development, acquiring knowledge and placement, it is the responsibility of the every individual student to approach faculty members and fellow seniors for their growth. In this aspect, the college cannot be blamed for whatsoever reasons.

#### **Mr. KCR. Naga Arjun, Mechanical Engineering, 2009-2013 Batch**

- He addressed that one should not say that we are in the remote area after the advent of internet and google since they provides all information to all users. He stressed that as a Mechanical Engineer one should choose his career in Mechanical Engineering companies rather than in IT related companies. He told that more opportunities are available for Mechanical Engineers in IT domain in their core division.

#### **Mr. Manikandan, Mechanical Engineering, 2009-2013 Batch**

- He pointed out that there is communication gap between Alumni association and Alumni of our college. The information about conduction of Alumni meet is not known to him till last minute. He came to know about it through his senior friend. It can be avoided and the information about Alumni Meet should reach properly to all Alumni to make the function more effective. Since he is working in the bank sector, he told that any MBA graduate with good communication skill may apply to his bank for jobs.

#### **Levin Madhu Sudhan, ECE, 2006 – 2010 Batch**

- He pointed out that students themselves should take sincere efforts to get good placements in the companies. During their study, students should cooperate with HODs and faculty members to conduct more number of technical events and seminars for acquiring knowledge. He told that whenever time permits, Alumni should go the college and interact with the students about the latest trends in the industry.

#### **Mohamed Safiyullah, ECE, 2006 – 2010 Batch**

- He told that adequate number of training programmes will be conducted for the students to get exposure to the latest technologies.

#### **Mr. S. Vazeem Faroz, IT , 2013- 2017**

- He told that he was very happy to attend the Alumni Meet to meet his senior friends and he will do many more help to the college once he attained good position in the life.

**Ms. Gayathri, ECE, 2011-2015**

- She pointed out that Alumni meet should be conducted in the college campus at the appropriate time.

Dr. M. Periyasamy, Vice Principal consolidated the points raised by the Alumni and proposed vote of thanks and the meet was concluded at 2.00 P.M. with Lunch.

**Response to the Alumni**

All the points given by the Alumni are very important. The Management, Principal and all HODs will consider all the above suggestions for the development of every individual.

**PRINCIPAL**

**CORRESPONDENT**
